# Is Your Fleet Road Check Ready?

**The Commercial Vehicle Safety Alliance (CVSA)'s Roadcheck 2007 is scheduled for June 5th-7th**

In 2006 **60,357 vehicles were pulled over** for inspection at 1,850 locations. **21.7% of all vehicles inspected were placed out of service.** Will your vehicle be one of them this year? Can you afford the fines and downtime if your drivers and vehicles don't pass inspection?

Craig Safety Inc. has the products and services to help you get your drivers and vehicles inspection-ready!

Are you concerned about to do for this year's Roadcheck, or how to prepare for future ones? **Call 1-888-257-0124 M-F 7:30-4:30 CST** to speak to one of our friendly and knowledgeable sales representatives.

### *\*Roadcheck Facts\**

**Roadcheck is a 72-hour period of increased inspections on U.S., Canadian and Mexican roads. Inspectors will be conducting comprehensive, 37-step North American Standard Inspections around the clock on drivers and vehicles.** Some of the things they'll check drivers for are **valid CDL or operators licenses, accurate log books, and complete and up-to-date medical certification. Vehicles will be assessed in 13 critical inspection areas, including brakes, cargo securement and lights.**

Craig Safety Inc. can help your drivers and vehicles pass **ANY** roadside inspection.

- Roadside Inspections: DOT Compliance Audits Manual
- Roadside Inspections Training Kit
- CVSA Inspection Charts
- North American Standard Out-Of-Service Criteria Handbook

In addition to these products and services Craig Safety Inc. offers an online compliance software, [Workhorse 1™](#) to help you keep track of all your driver and vehicle information in one secure location.

# Safety Incentives "What Rewards Work Best"

How do you motivate workers to follow company policy, whether it is for safety and health, or just simply to attend the company holiday party? If you have lied awake at night wondering the answers to these or similar questions this webinar is for YOU! Join us along with Presenter Dr. Marc Resnick, President of Performance Solutions for one information-packed hour learning powerful tools to improve your workers' behavior.

This 60 minute webinar will answer the many critical questions surrounding this issue including:

- What is an incentive?
- Does the worker understand the value of behaving safely?
- Does our organizational culture support safe behaviors?

You will also learn:

- No cost awards
- Specific Achievement Incentives
- How to use the T.R.A.I.T. System to create programs
